

Elective Selection Sheet

Year 9, 2021

❖ Instructions to Parents and Students

Students are to list five (5) Electives and they are to number them 1 to 5 in order of preference over the page. Students will be allocated three (3) electives.

Numbers are limited in some electives and therefore there is a lot of competition to be enrolled in these electives. Elective sheets will be numbered, as submitted, and those that get their elective choices in first will be given priority.

It is very important that students choose subjects they are interested in and feel they will enjoy. At this stage of their education future career choices are unlikely to be influenced by their elective choices in Year 9.

Parents and students need to be aware that some electives have subject contributions to cover the cost of materials used by the students. These fees are required for study of that elective.

Elective Selection Sheets are due back to:

Mr Hardy in Djaambii A room or
Ms Gilligan at the PDHPE staffroom

By Friday 14 August 2020

If elective selection sheets are not submitted by this date, electives will be allocated to students only if vacancies exist in subjects.

Year 9/2021

Course List – Number Your Choices 1-5 in order of preference

Student Name:

	Aboriginal Studies
